Bill McCarter, Planning Director, explained that Cleveland County has been designated as a Certified Local Government by the State Office of Historic Preservation. The application is being reviewed by the US Park Service for final approval. The State Office of Historic Preservation has recommended two minor changes to the code. The following changes were not required; however, these changes will help clarify the duties of the Historic Preservation Commission.

Section 12-403 Historic Preservation Commission

- (a) Membership. The Commission shall consist of nine members appointed by the County Board of Commissioners. Four (4) members shall reside in the county planning jurisdiction and four (4) members shall reside in one of the participating municipalities, and one (1) member shall be reserved for the current president of the Historic Shelby Foundation, or their designee. The population of the jurisdiction shall be used to determine the number of members representing each participating municipality.
- (b) Membership requirements. A majority of the members of the Historic Preservation Commission shall have demonstrated special interest, experience, or education in history, archaeology, preservation, architecture, real estate, or law.
- (c) Tenure. Members of the Commission shall serve terms of four (4) years, except for the President of the Historic Shelby Foundation, which is based on the term of that office. Initial appointments shall be staggered as follows: two (2) county members and (2) municipal members for four (4) years, two (2) county members and (2) municipal

members for four (2) years, ~~and the Historic Shelby Foundation representative shall be appointed for four (4) years.~~ Reappointments shall be limited to two (2) consecutive terms, after which a member may be re-appointed after one (1) year absence from the Commission.

(f) Duties. The commission may:

- (1) Undertake an inventory of properties of historical, architectural, archeological, or cultural resources.

Section 12-404. Historic landmarks.

Upon complying with the required landmark designation procedures set forth herein, the board of commissioners, or the governing board of the participating municipality, may adopt and from time to time amend or repeal an ordinance designating one or more historic landmarks. No property shall be recommended for designation as a landmark unless it is deemed and found by the commission to be of special significance in terms of its historical, ~~prehistorical~~ archeological, architectural or cultural importance, and to possess integrity of design, setting, workmanship, materials, feeling and/or association.

The landmark ordinance shall describe each property designated in the ordinance, the name or names of the owner or owners of the property, those elements of the property that are integral to its historical, architectural or ~~prehistorical~~ archeological value, including the land area of the property so designated, and any other information the governing board deems necessary. For each building, structure, site, area or object so designated as a landmark, the ordinance shall require that the waiting period set forth in this article be observed prior to its demolition. A suitable sign for each property designated as a landmark may be placed on the property at the owners consent; otherwise the sign may be placed on a nearby public right-of-way.

No property shall be designated as a landmark until the following steps have been taken:

- (1) As a guide for the identification and evaluation of a landmark, the commission shall, at the earliest possible time and consistent with the resources available to it, undertake an inventory of properties of historical, architectural, ~~prehistorical~~ archeological, educational or cultural significance of each building, structure, site, area or object proposed for designation or acquisition. Such report shall be forwarded to the state department of cultural resources, division of archives and history.
