<u>PUBLIC HEARINGS</u>

<u>FY 2018 – 2019 COUNTY MANAGER'S RECOMMENDED BUDGET</u>

Chairman Holbrook called upon County Manager Brian Epley to present the FY 2018 – 2019 recommended budget. Mr. Epley stated the budget and the County Manager's budget message have been released for public review. He reviewed the budget objectives and reminded the Board this is a year-round process and includes several work sessions. Mr. Epley advised the tax rate will remain consistent with the prior years at .57 cents and then detailed to the Board the breakdown of where that .57 cents is used in the County. The tax rate has only changed three times over the last twenty years with each time being a decrease. The current tax rate has not been raised since 2007. The ability to maintain the tax rate is due to economic growth in Cleveland County. During 2012 – 2015, there was little growth due to the location of several large industries. In 2016, a mandatory re-evaluation done showed a decrease of 3.8% in property values. Since that time, the County has recovered slowly and steadily with natural and normal tax base growth with other parcels in the community. Moving into the FY 2018 – 2019, NTE, located in Kings Mountain, has listed their value at \$230 million dollars. There has been Duke Energy's utilization has affected their tax value showing a decrease of roughly \$100 million dollars.

The largest budgeted revenue, which is consistent with other counties in the state, is Ad Valorem Taxes at 54% and Restricted Intergovernmental at 23%. The diversity of the budgeted revenue is a healthy combination and not overly dependent on property tax which is a top goal for fiscal sustainability. The Board's strategic goals and focus areas such as the completion and implementation of phase one and two of the Pay and Classification Study and county-wide software upgrade was able to be meet and executed with fiscal sustainability.

Chairman Holbrook opened the Public Hearing at 7:16 pm for anyone wanting to speak for or against the FY 2018-2019 County Manager's Recommended Budget.

Hearing no comments, Chairman Holbrook closed the Public Hearing at 7:17 pm. (Legal Notice was published in the Shelby Star on Friday, April 20, 2018 and Friday, April 27, 2018).

Chairman Holbrook opened the floor to the Board for questions and discussion. The Board thanked Mr.

Epley and staff for all of the hard work, time and energy that went into making the budget and presentation.

<u>ACTION:</u> Commissioner Hutchins made a motion, seconded by Commissioner Allen, and passed

unanimously by the Board to, approve the presented FY 2018 – 2019 County Manager's Recommended Budget.

INTRODUCTION

Long range financial planning in Cleveland County brings together the major components of the County budget: General Government, Health & Human Services, Solid Waste and the Capital Improvement Plan. It is a critical process for County's AA+ bond ratings and creates the framework for the annual budget development process. During the fiscal year 2017-2018, the County took a large step forward in comprehensive financial modeling by drafting a formal Five Year Financial Capital Improvement Plan which has been a valuable tool for taking a long- term look at the County's revenue and expenditure picture. The County believes it is beneficial to focus on balancing current year operations with out-year known capital and deferred maintenance. Expanding beyond the Annual Budget to include a multi-year outlook has provided a more helpful framework for decision making on major financial issues.

Long range financial planning and the adopted FY18 Operating and Capital Budget recognized that the cumulative impacts of community and Board aspirations along with managing inflated internal and external customer expectations and service obligations may outpace available resources. This pinned-up demand and inflated level of expectation was created as a result of the economic recession from 2008-2014 which resulted in a period of operational stagnation by the County. The FY18 budget acknowledged continued economic uncertainty at the state, national, and international levels by proposing responsible strategies that helped buffer the County from potential economic turbulence. It set a financial course for Cleveland County to advance strategic priorities, maximize transformation, sustain a quality organization, and make strategic investments that included a facilities matching and a neary savings initiative, and implementation of a modern and sustainable employee pay plan.

The recommended FY 19 balanced budget focuses on delivering tangible results in an we set out on in FY 18, maintaining the momentum achieved towards advancing the strategic plan, and positioning ourselves to successfully address emerging community needs not yet captured in the strategic plan.

The decision framework was directed by the Board's adopted strategic goals and reflects our work in priority-based budgeting. The plan also reflects the strategic use of one-time money to advance priorities and avoid creating future obligations.

The County's initial five year capital improvement plan is attached as part of the comprehensive financial planning package. This package will be updated annually and presented to the Board of Commissioners to set the tone of the upcoming budget season. A brief summary and highlights of that plan is included in this rollout budget mcssage summary.

Cleveland County has used strategic planning for many years to inform policy development and financial decision-making and achieve the community desires and values articulated in the County's Strategic Plan. The FY 19 Commissioner Strategic Plan is comprised of five (5) focus areas and then further defined with specific goals and objectives

Employee Benefits

Cleveland County strives to be an employer of choice. On average, employees receive a benefit package that represents 25-35% of their total annual salary. Effective 1/1/18 as part of Phase I of the Pay and Classification study, each employee in the organization had their salary moved into market. We are very excited to include, as part of the FY 19 budget, a one prevent (1%) cost of living adjustment at a total cost of \$400,000 to offset inflation since the market adjustment.

It will include the involvement of local partners and a marketing campaign that engages the local school system. The FY 19 budget includes a budget appropriation of \$15,000 to provide resources for this

Cleveland County is home to fifteen (15) municipal governments, which is one of the highest numbers of any County in the State. Each of these municipal partners are vital to providing the highest level of government services to the citizens of Cleveland County. Since FY 16, the County has provided several one-time capital grants to municipalities to help facilitate recreational opportunities across Cleveland County.

The Board of Commissioners recognize the importance of supporting these local efforts while maintaining a balance with a multitude of other competing interests, social responsibilities and statutory duties. To help facilitate long-term sustainability, we have included a new municipal grant program as part of the FY 19 budget. The program will allocate \$60,000 on an annual basis that would be disseminated to Cleveland County municipalities through a competitive application that is analyzed based on competing interest and Strategic Plan alignment annually through the County's budget process.

Inspection fee revenues increased in preceding years due to pent up demand after the recession. We anticipate fees will return to a more normalized rate in the coming years. As such, in FY 19, inspection fee revenue is projected to increase slightly. The FY 19 budget has a measured estimate of \$190,000.

Investment Income

Investment income is a barometer of strategic use of un-allocated resources. Staff are constantly evaluating 60, 90, & 120 day cash flow needs in order to maximize the investment portfolio. Focus Area - Public Safety

The total public safety budget for Cleveland County in the FY 19 budget is \$22,759,494 and includes the Sheriff's Department, Detention Facility, EMS, Emergency Management, and E-911 communications. The County Commissioners commitment to public safety investment is most evident when analyzed over time. In 2014, this budget was \$19,008,0050 – the increase of \$3,150,444 has been more than any other function of County government and has supplanted in matching the funding levels of other similar North Counties.

Included in the FY 19 budget is continued momentum for public safety including five (5) new positions at the Detention Facility. Also included in the budget and in the 5 Year CIP plan is further allocation of one-time capital for the preliminary due diligence for a McBrayer Street Jail Expansion.

mindset of public service entrepreneurship. Our rethinking initiatives have resulted in identifying those projects, services, and business relationships that needed strengthening and those that needed abolishing. Our team of department leaders and budget managers have exceeded expectations over the past 4 budgets – in 2014 the County had an overall General Fund Budget of \$113,583,738 and the total appropriation for FY 19 is approximately \$114,667,935. Since that period, we have:

- Increased staff salaries on average more than 20%
- Improved all aspects of the employee health plan Created employee tuition reimbursement plans Developed a 20-year Master Facility Plan Increased public school funding

Our team is also pleased with the success of our long term and prudent fiscal planning. Included as an attachment of the FY 19 budget is a formal 5-year Capital Improvement Plan. The plan is intended to identify with a future orientation, upcoming capital needs (which are conceived from our Facility Planning and Long Term Operational Strategies) and align those needs with proper funding resources. This type of policy direction and support from the Board of Commissioners is greatly appreciated by staff and recognized as true fiscal sustainability. The County recently received a bond rating upgrade from S&P/Moody's and is now AA+ - which ranks in the top 15% of all Counties in the State.

Debt service management is another vital part of long term planning and sustainability. The County has approximately \$60,000,000 in outstanding debt obligations; however, due to strategic management and innovative planning the County General Fund is only responsible for paying 37% of that amount. That represents approximately 3.23 cents of the County's 57 cent kar rate. The remaining 63% of the debt is serviced from other Federal, State, and Local funding sources. Currently over 75% of the County's debt will be completely liquidated over the next 10 years

The overall appropriation of local funding for the Department of Social Services will be \$7,732,622. This represents a decrease from the prior year of \$77,282 and a decrease in three of the last four years. Several key changes are reflected in the FY 19 budget including continuation of NC Fast implementation, State management of Medicial Transportation and State management of Childeare Services. Cleveland County DSS employees approximately 220 FTEs which equates to approximately 25% of the County more decrements of the services.

The overall appropriation of local funding for the Department of Public Health will be \$3,511,276. This represents an increase from the prior year of \$345,276, but a cumulative decrease since 2014 of approximately \$500,000. The Public Health Department continues to lead the charge on improving the County health ranking and educating citizens on the importance of community wellness. The Public Health Department has approximately 160 FTEs.

Operational Highlights

The Cleveland County Register of Deeds (ROD), Betsy Harnage, will begin processing and administering passport applications during FY 19. This is only being done in a few Registers offices across the State and we applaud the team for offering a new service to the Citizens of Cleveland County. This service is being offered as a result of the hard work and innovative ideas of the ROD. This new service required very minute capital improvements to the existing office, and a marginal increase in the operational and part time budget. Off-setting revenues were budgeted very conservatively due to the first year of implementation; however, we are very excited about this new opportunity.

The Human Resources Department continues to work to support an atmosphere that promotes work place engagement, employee wellness, and high performing culture. Included in the FY 19 budget is continued funding of \$30,000 to provided effective supervisory training, diversity training, and workplace harassment training. Also included in the Human Resources budget is funding to complete Phase II of the comprehensive pay and classification study. Our administrative leadership team is very appreciative to the Board of Commissioners for conducting and implementing the first pay and classification study for Cleveland County in over 25 years. The outcomes derived from the study indicated that Cleveland County was approximately %behind market, and the cost to get to market was \$2,000,000. The Board of Commissioner voted unanimously to implement the full study with an effective date of 11/18 – without increasing taxes. Phase II of this process is to implement more undated and formal policy including increasing taxes. This funding will include year two of the West End Reach transportation project. Staff Continues to see an increase in ridership on the transportation route that serves West Shelby. Funding also provides continuation of a full-time school nurse at Graham Elementary to provide telemedicine services and community development opportunities.

The Board of Commissioners have also sanctioned \$17,000 to provide a post occupancy and operational efficiency evaluation at the Cleveland County Public Health Department. The Public Health Department has been functional for approximately 24 months and the Board of Commissioners are focused on maximizing the community benefit moving forward. In FY 18, the Public Health Center initiated a *Live Healthy Cleveland County website* designed to offer

In r 1 is, the rule item Center than the dear brief in the rule in a variety of safe settings throughout clear a rary of exciting opportunities to become physically active in a variety of safe settings throughout Cleveland County. RECOMMENDED FY 2019 STAFFING PLAN

Cleveland County currently employs more employees than the average county based on population

In an effort to manage the human capital, the County administrative leadership team has incorporated three points of emphasis for the upcoming fiscal year.

- A.) Position Justification A formal and data driven review of each vacant position in the organization as it is vacated. The review includes analyzing the potential for cross departmental sharing, technology savings and attrition.
- B.) Position Re-Classification This represents an intentional effort to maximize each FTE position within County government. Our team recognizes that business and service delivery expectations change and that our team should look for opportunities to align current resources with the most appropriate need.

Focus Area - Fiscal Sustainability

I began serving Cleveland County as Finance Director in 2014, at that time the County's fund balance was 14.6%. It has been a continued goal of the County Commissioners to increase the County's fund balance to between 18-20%. Primarily due to intentional budget management, service re-design, and expenditure re-engineering, the 6/30/2018 projected fund balance will be approximately 18.5%.

Cleveland County Government is committed to the fundamental principles of a High Performing Organization (HPO). One of the essential functions of an HPO organization is continuous self-reflection and rethinking of all activities and programs. One of our continued focuses is maintaining an innovative

Included in the annual appropriation is the addition of five (5) additional FTEs at the Detention Center at an approximate cost of \$180,000. This staffing recommendation also considers the possibility of co-locating both of Cleveland County's jails in the future

CONCLUSION

The 2018-2019 Fiscal Year Budget will continue to provide our residents, families, and guests with a full scope of high quality services. All signs in the community are continuing to trend in a very positive direction from both a macro-economic and community service perspective. It is truly a very exciting and transformational time for Cleveland County.

We are facing new challenges in the organization and in the community in 2018 that are very different than ten years ago. Our economic indicators such as unemployment, sales tax revenue and occupancy tax have maintained momentum, along with the growth of the national economy. These economic stabilizers have connected with the strategic economic development roots that were planted by Cleveland County Commissioners during the great recession and are beginning to provide unprecedented opportunity; however, it also creates very unique complexities and challenges. Our executive leadership team is aware and very cognizant of the responsibility that comes with opportunity and is excited about what the future offers for Cleveland County and its' citizens. Cleveland County Government experienced eight to ten years of economic suppression from, 2005 – 2014, which created pent up demand in most areas of County government including human capital, information technology/automation, and deferred building maintenance. Our executive leadership is indebed to the Board of Commissioners for recognizing these needs and allowing staff to develop action plans that address these areas. This again adds to the excitement and buzz in the organization.

Once again, I would like to say thank our Commissioners for their vision and direction through this process and all the hard work of our Department Heads and staff. With the effective work of our Finance Department and that of each Department, the County is operating with a clear plan of maintaining fiscal strength and stability. This Budget will allow Cleveland County to continue its quality of life as a thriving and safe community that cherishes its location, maximizes and creates opportunity and evolves to meet the continuous challenges that success brings.

<u>REGULAR AGENDA</u>

MINIMUM HOUSING INTER LOCAL AGREEMENT FOR THE TOWN OF BOILING SPRINGS

Chairman Holbrook recognized Senior Planner Chris Martin to present the minimum housing inter-local agreement between Cleveland County and Boiling Springs. The Town of Boiling Springs requests the County Building Inspections office to administer and enforce the minimum housing ordinance. The minimum housing code helps protect the health, safety, and welfare of the community by establishing minimum standards for buildings used for habitation and provides a process for towns to demolish dilapidated housing. Any costs for demolition will be paid by the Town of Boiling Springs and a lien will be placed on the property. The agreement may also require staff to attend a town council meeting to present the Order to Repair/Demolish. The County has similar agreements with Belwood, Lawndale, Kingstown and Grover. The Land Use Plan encourages all towns to adopt a minimum housing code within their jurisdiction.

Chairman Holbrook opened the floor to the Board for any questions and discussion. Commissioner Whetstine inquired if the town has been doing the minimum housing enforcement in the past. Mr. Martin stated yes, the town has, however they have not had many cases. If this agreement is approved, it will not cause a burden to current County staff. Chairman Holbrook stated if the amount of cases became to great for the County, the agreement would need to be re-evaluated. Commissioner Hutchins asked where the town's permits are currently

issued? Mr. Martin stated permits are currently given from the County office.
